Intern (f/m/d): Intelligent Enterprise Group - Data Protection and Privacy

COMPANY DESCRIPTION

SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That's why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.

SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it's the best-run businesses that make the world run better and improve people's lives.

PURPOSE AND OBJECTIVES

The mission of the CBO Central Business Operations Team is to support the Intelligent Enterprise Group (IEG) Board Area to run efficiently and compliant.

The CBO Central Business Operations Team is responsible for:

Implementing a proper IT Governance model across different units and board areas
Ensuring compliance and transparency regarding Data Protection and Privacy and IT Works Council Co-Determination

EXPECTATIONS AND TASKS

As intern (f/m/d) in the dynamic CBO Central Business Operations team, you will focus on Data Protection & Privacy topics being involved in the following tasks:

- You support the planning, execution and follow-up of expert meetings and internal CBO events
- You help to drive transparency by analyzing use cases, developing reports, and presenting outcomes to the target groups and make initial suggestions for improvements
- You work on cross-team projects, building the bridge between SAP internal IT stakeholders and SAP's Data Protection Office and experience at first-hand how the company develops (strategical view) - same for new/established applications and systems like SAP ERP, CRM, ... (operational view)
- You are part of strategic as well operational decisions how to implement new technologies/products/services (e.g. Machine Learning, Bots, Anonymization, ...) in a compliant way considering legal influences
- You support our stakeholders by sharing latest information/knowledge via the SAP internal portal, SharePoint, MS Teams, ...

EDUCATION AND QUALIFICATIONS / SKILLS AND COMPETENCIES

- Student (f/m/d) at a university or a university of applied sciences
- Preferred fields of study: Studies of business informatics, business administration, or adjacent disciplines
- IT skills: Good skills in MS Office (Power Point, Word, Excel)
- Preferred IT skills: Visual Basic (VBA), Python, MS Teams, SharePoint
- Language skills: Good language skills in English and German are essential to deal with virtual and international Teams
- Willingness and ability to learn new subjects quickly
- Very good analytical and problem-solving skills
- General IT knowledge, interest in Project Management
- Able to work independently
- Soft skills: Excellent team player with strong ability to network and with drive for tangible results with a pronounced quality awareness and preciseness

Then YOU are the right candidate for this position. We are looking forward to your application and getting to know you.

Your set of application documents should contain a cover letter, a resume in table form, school leaving certificates, certificate of enrollment, current university transcript of records, copies of any academic degrees already earned, and if available, references from former employers (including internships). Please describe as well your experience and skills in foreign languages and computer programs / programming languages.
